The IPMA Forum continues to provide a dynamic conference for business and IT professionals — from government and private industry — to take advantage of up-to-date information, networking and professional development opportunities.

Forum is the premier event for Washington State government professionals seeking tools and best practices to equip their agency for the 21st century.

From enterprise strategy updates — to innovative business solutions – to insights from leading industry experts – to a comprehensive showcase of technology in action—it's all at the Forum.

This two-day conference and expo addresses some of the most relevant and pressing technology, business and management priorities and issues for State government and its private sector partners. With more than 30 sessions including keynotes, panel discussions and in-depth technical sessions, you can expect to take home best practices, policy updates and detailed guidance on cloud, mobile government, cyber security, Lean/agile, open data, and other important topics.

FORUM THEMES AND SESSION TOPICS:

Cloud – Secure Applications in the Cloud; Leveraging the WSCA Contract; Driving Business Value.

Cybersecurity – Insider Threats; Cybersecurity Myths; Next Generation Security; Location Based Security Analysis; Physical Security; CTS Security Design Review.

Mobile Government – Anytime, Anywhere, Any Device Strategies; CTS Mobile Solutions.

People and Process – Shifting Towards a Digital World; Six Thinking Hats; Sevens Habits of Highly Effective People; Map-driven Learning; Fixing Public Disclosure.

Lean/Agile - Efficient, Effective, Accountable Government; A Lean Culture Case Study.

Application Development – Continuous Integration; Development Skills of the Future.

Technologies and Solutions – Empowering Citizens; Health and Social Programs; Print Services and Solutions; Legacy Platforms.

Data is Key – Open Data Initiative; Location Based Services; Next generation Open Data.

FORUM KEYNOTES:

"Under the Digital Dome: State IT and Forces of Change" -- Doug Robinson, NASCIO Executive Director

"Reimagining Strategic IT Planning" -- Michael Cockrill, Chief Information Officer, State of Washington

FORUM TRACKS:

Technical Skills - Sharpening the Saw.
